PUBLIC HEALTH TALK : TOPIC

- 1. An Emerging Infection: Zika Virus**
- 2. Asthma & Allergy: Prevention, Diagnosis and Treatment**

In 2014, the World Health Organization Global Status Report estimated 17 % deaths in Malaysia caused by infectious disease¹. The statistics revealed that up to fifty percent of the World's teenagers were already suffering from airway allergies such as allergic rhinitis and asthma. According to WHO estimates, 235 million people suffer from asthma².
