

19th Malaysian Congress and Exhibition on Allergy and Immunology

incorporating
**GA2LEN-MSAI Allergy School &
World Allergy Week 2019**
5th - 7th April 2019
Le Meridien Kuala Lumpur, Malaysia

Message from the President Malaysian Society of Allergy and Immunology MSAI

Dear Friends and Colleagues

On behalf of the Malaysian Society of Allergy and Immunology, we have great pleasure in extending our invitation to participate in the 19th Malaysian Congress of Allergy and Clinical Immunology, in collaboration with the Global Allergy and Asthma European Network (GA2LEN) on 5th - 7th April 2019, at the Le Meridien Kuala Lumpur, Malaysia.

As allergic diseases continue to be a global health problem, MSAI has not spared efforts to push the agenda of Allergy being made a sub-speciality or a stand-alone specialty through various programmes with the recent one being the National Clinical and Immunology Symposium and the Dasar Baru workshop with the Ministry of Health Malaysia.

The collaboration with the Global Allergy and Asthma European Network (GA2LEN) is a first for MSAI and we are proud to announce that the GA2LEN-MSAI Allergy School, is being held for the first time in Malaysia. This would not only provide a good platform as a learning experience but it will also be an opportunity to exchange ideas and expertise, whilst creating a mutual networking atmosphere for the betterment of our patients with allergic diseases.

The programme for 5th April 2019 would be dedicated to our annual congress and would involve topics (presented in symposia and workshops) distinct from the GA2LEN-MSAI Allergy School. The programme for 6th and 7th April 2019 will be focused on Updates on the Management and Treatment of Urticaria and Allergic Rhinitis.

For participation as a sponsor for 5th April 2019, please refer to the Sponsorship Prospectus. Day 2 and Day 3 programme is a fully sponsored programme by Menarini Asia-Pacific.

In view of the GA2LEN-MSAI Allergy School we expect a good turn out from various disciplines of medicine viz Allergy, Immunology Paediatrics, ENT, Dermatology, Respiratory, General Practitioners and Allied Health staff, not only from Malaysia but from the neighbouring countries too.

Looking forward to your participation.

Thanks and regards.

Yours sincerely

Dr Amir Hamzah Dato' Abdul Latiff
